

SH10 and SH5

AQUA FILTER PLUS SHOWER FILTER

While pure drinking water keeps your body healthy inside, bathing with clean water keeps you looking and feeling your best. Now with Aqua Filter Plus it is possible to shower in clean water and keep your skin and hair smooth, soft & beautiful.

Chlorine from chlorinated water can penetrate the skin while showering because the skin pores expand from the warm water. Chlorine also gets released into the air in a gas form. Inhaling the steam from the shower means that we are also inhaling harmful chlorine gas. With an Aqua Filter Plus shower filter you could enjoy your showers without worrying about these dangers.

PRODUCT FEATURES & BENEFITS

- Effectively reduces chlorine in shower water
- Makes skin feel and look smoother
- Revives the natural shine in hair and makes it softer

PRODUCT MODELS

Available as 10" Model SH10 and 5" Model SH5

 - Model SH5 - 6" height X 4½" X 4½"

RECOMMENDATIONS

Replacement cartridge model SF/H10 for the 10" and SF/H5 for the 5"

TECHNICAL DETAILS:

SH10 & SH5 features an activated carbon block cartridge. The cartridge includes a 2-stage process: fine sediment and particle reduction down to 5 micron, and a briquette consisting of activated carbon for the reduction of chlorine. The briquette's special design ensures an even flow throughout both stages for a thorough filtration.
