

Whole House Water Filters

The Aqua Filter Plus whole house water filter is ideal for high flow applications. With its heavy-duty multi-stage filtration process and high performance media you get sparkling clean water not only in your kitchen but in the whole house. Imagine, spring like water through every faucet of your home! The

ultimate multi-stage filtration ensures that you drink clear, pure water, as well as consume the same great-quality, clean water for bathing and showering.

Chlorine and other chemicals in the water could dry your skin and damage your hair. By using the uncontaminated, wholesome water from this water filter, your skin and hair will feel softer and smoother from the very first shower. No more dry itchy skin or unpleasant odors from the chemicals in your water. A whole house water filter will ensure that you shower and wash your hands with the clean water you deserve.

PRODUCT FEATURES AND BENEFITS

- Effectively reduces chlorine, taste & odor
- Reduces Volatile Organic Chemicals (VOC's), sediment, rust, sand, silt and pesticides

PRODUCT DETAILS:
